DETAILED ACTION

Acknowledgment is made of the supplemental amendment filed on 2/08/06. Claims 4-9, 12-15, 17 are currently pending.

Allowable Subject Matter

1. Claims 4-9, 12-15, and 17 are allowed.

2. The following is an examiner's statement of reasons for allowance:

the prior art of record fails to teach, or fairly suggest either alone or in combination thereof, the device and method wherein the sensor array is a two-dimensional array of light sensing elements in each of the rows extending in a scanning direction, and the plurality of rows arranged in a direction perpendicular to the scanning direction with respect to one another, the light sensing elements in a first one of the rows having a first height measured in the direction perpendicular to the scanning direction, and the light sensing elements in a second one of the rows having a second height measured in the direction perpendicular to the scanning direction, the second height different from the first height;

the device wherein the scanning control circuit during the first pass selectively samples signals from the light sensing elements in a first pair of rows having a first cumulative height in a direction perpendicular to a scanning direction, and during the second pass selectively samples signals from the light sensing signals from the light sensing elements in a second pair of rows having a second cumulative height; and
